

PREPARACIÓN DE ZONA DE TRABAJO

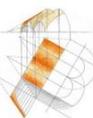

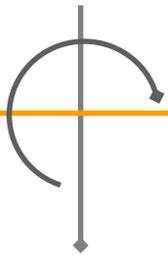

1. Soporte

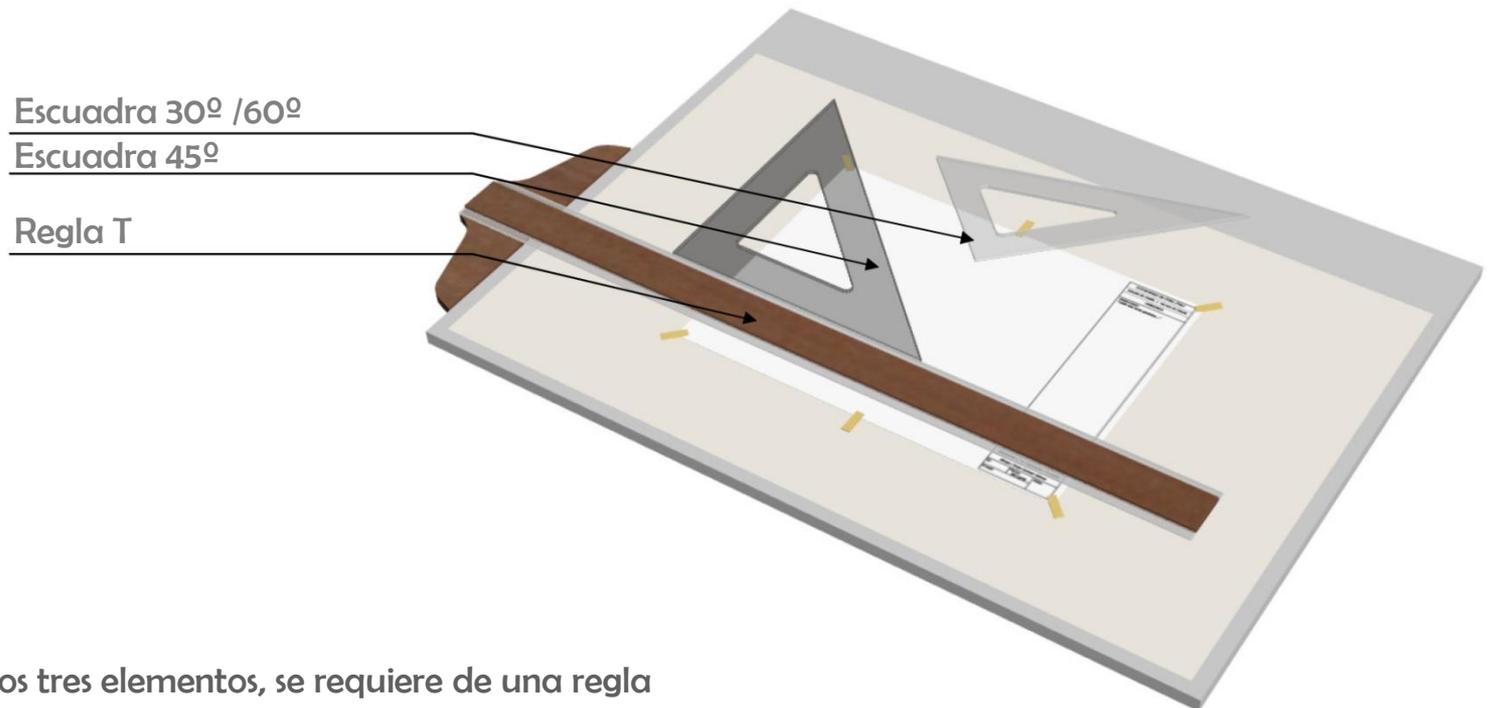

Entre el tablero y la hoja de dibujo se recomienda colocar un pliego de papel hilado para minimizar las deficiencias en el dibujo por causa de las irregularidades de la superficie del tablero.

El papel adhesivo (cinta de enmascarar) evita que la hoja se desplace de manera imprevista y se perjudique el dibujo.

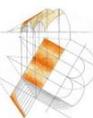

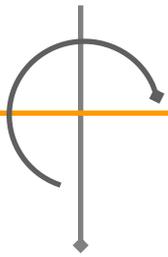

2. Reglas y Escuadras

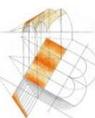

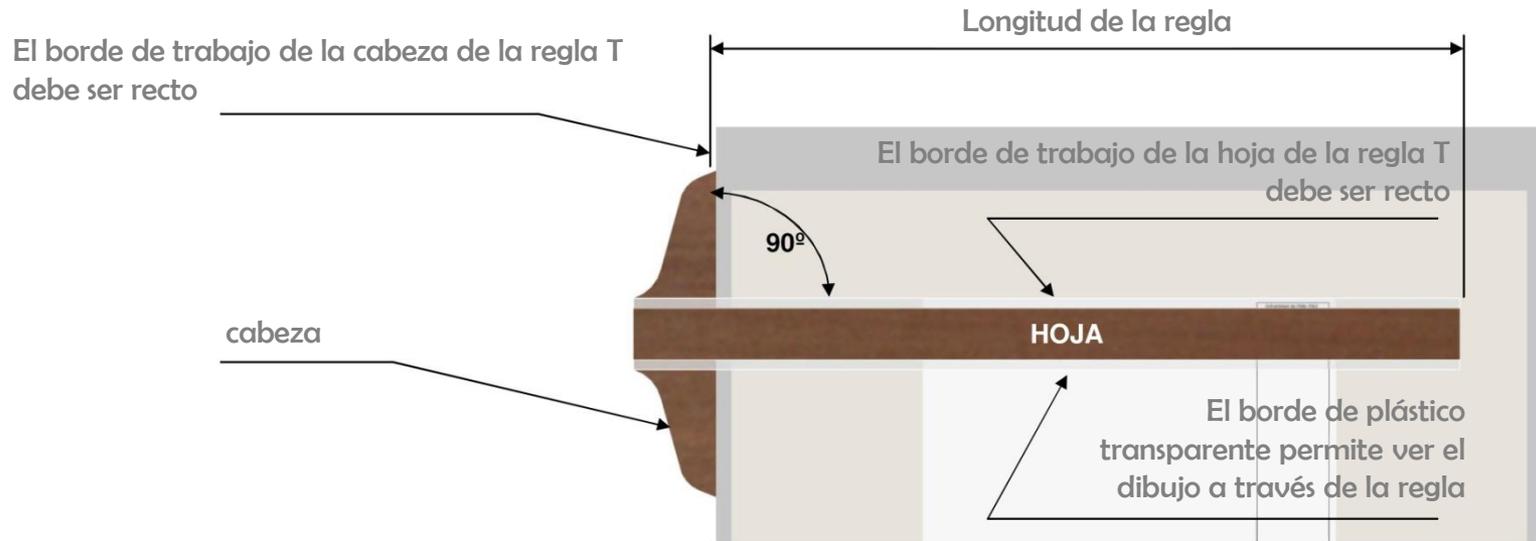

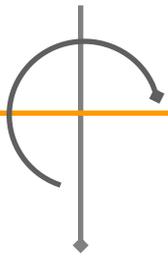

Además de estos tres elementos, se requiere de una regla graduada (mm), y eventualmente un transportador.

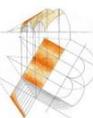

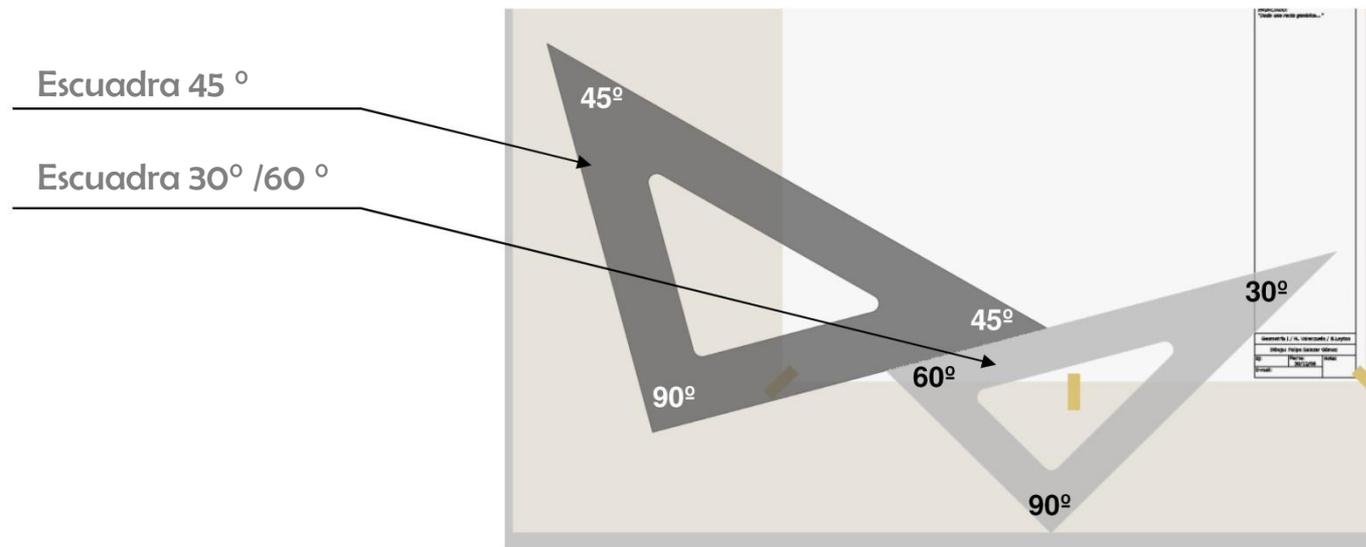

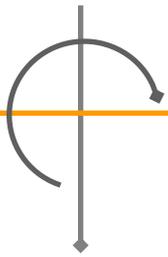

■ Regla T

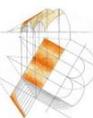

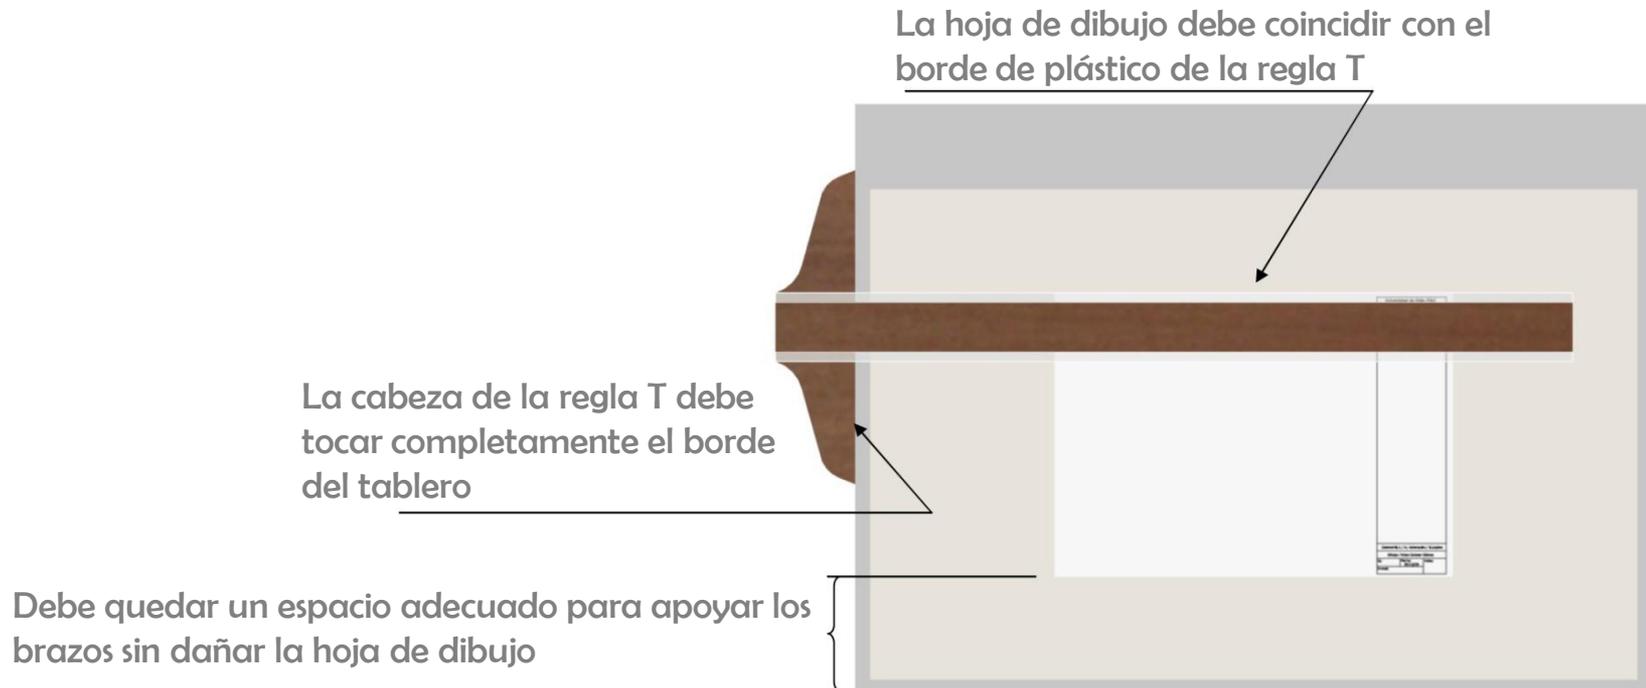

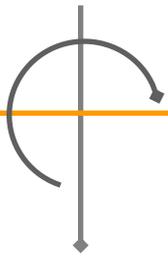

■ Escuadras

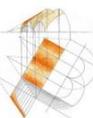

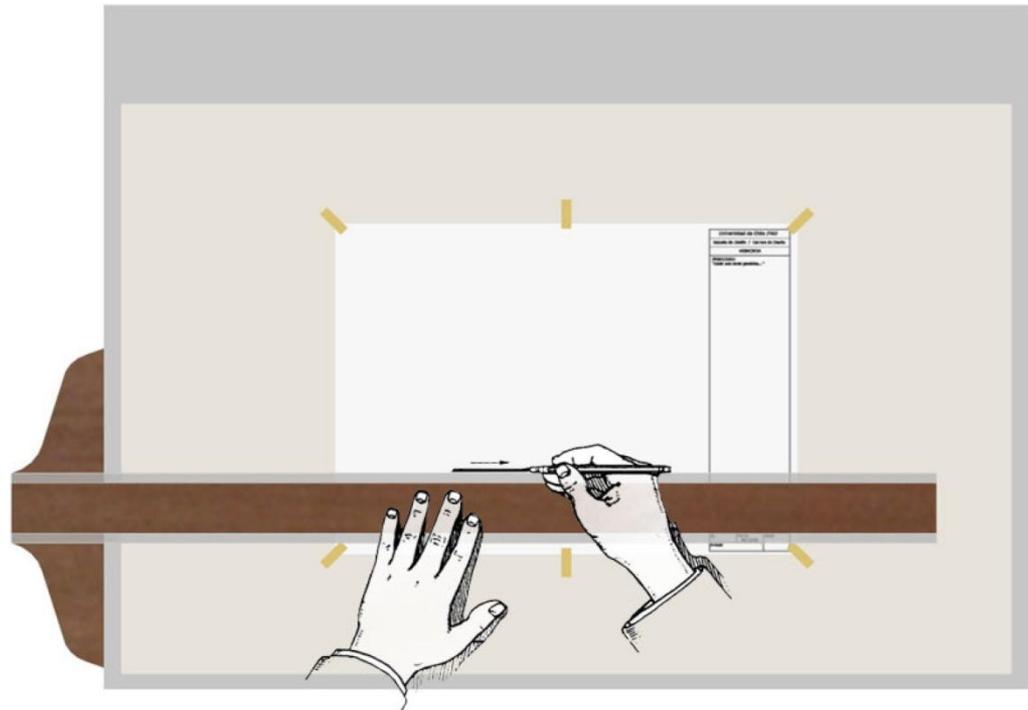

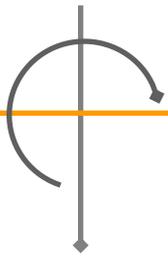

3. Alineación del Papel

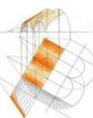

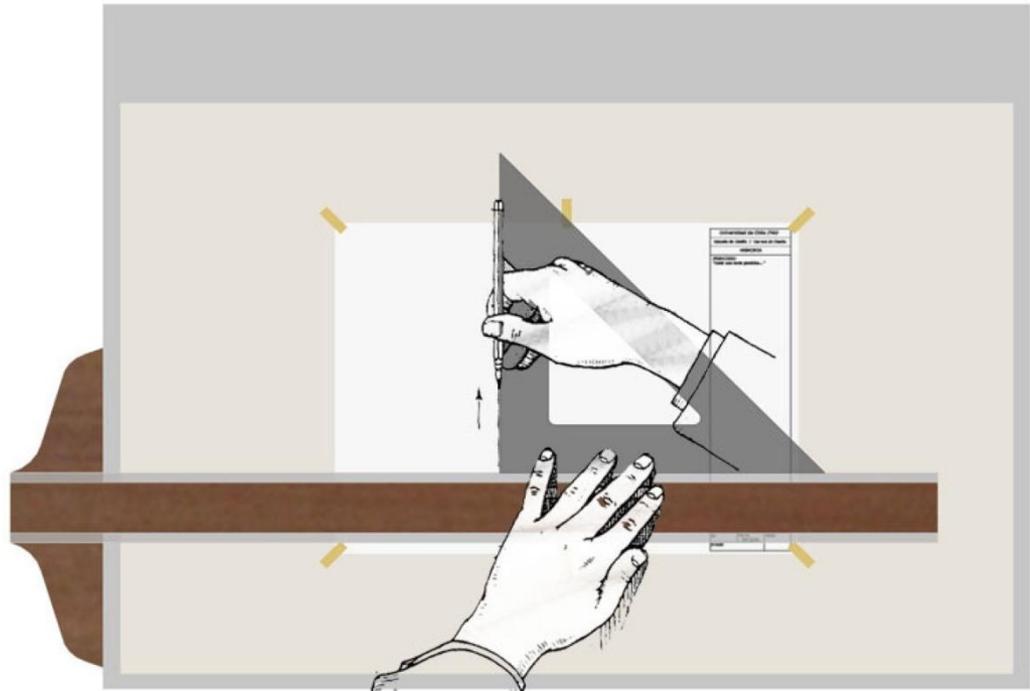

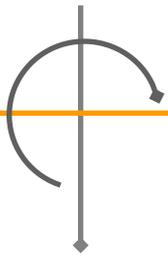

4. Trazar Línea Horizontal

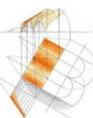

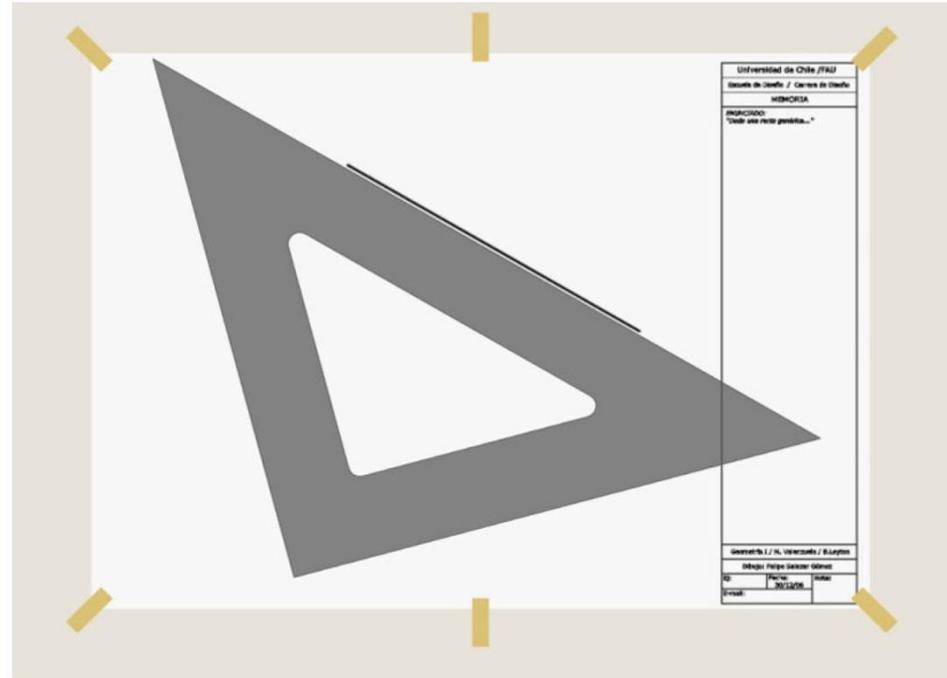

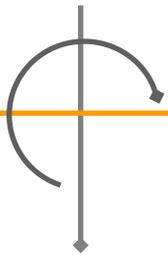

5. Trazar Línea Vertical

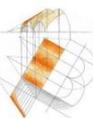

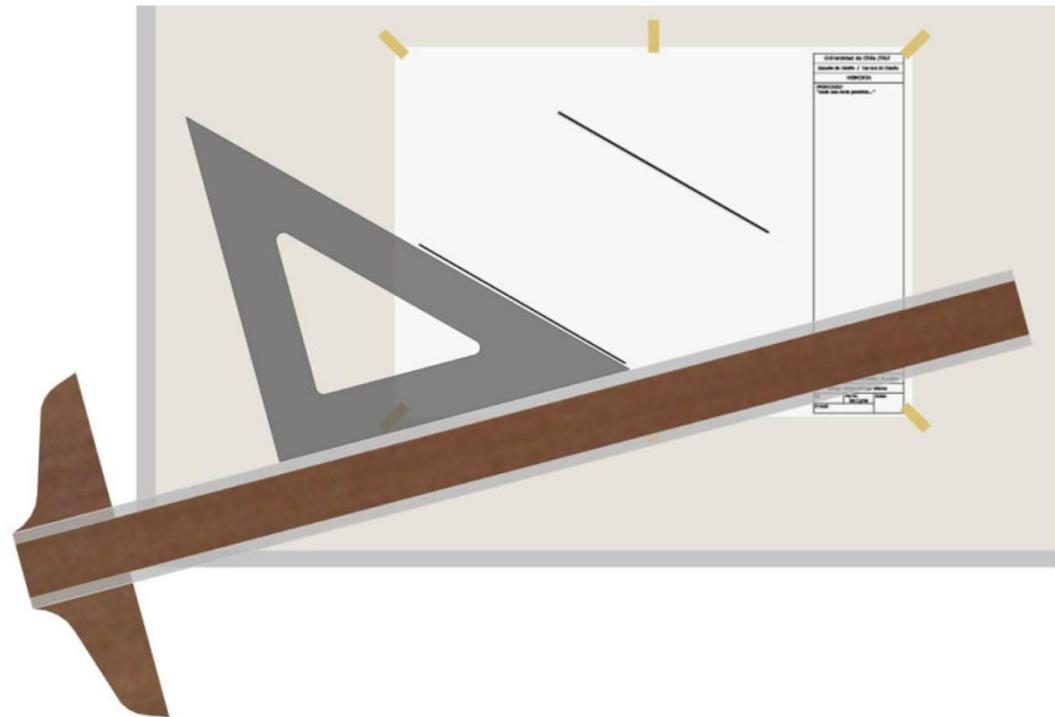

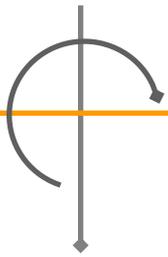

6. Trazar Línea Arbitraria

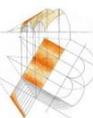

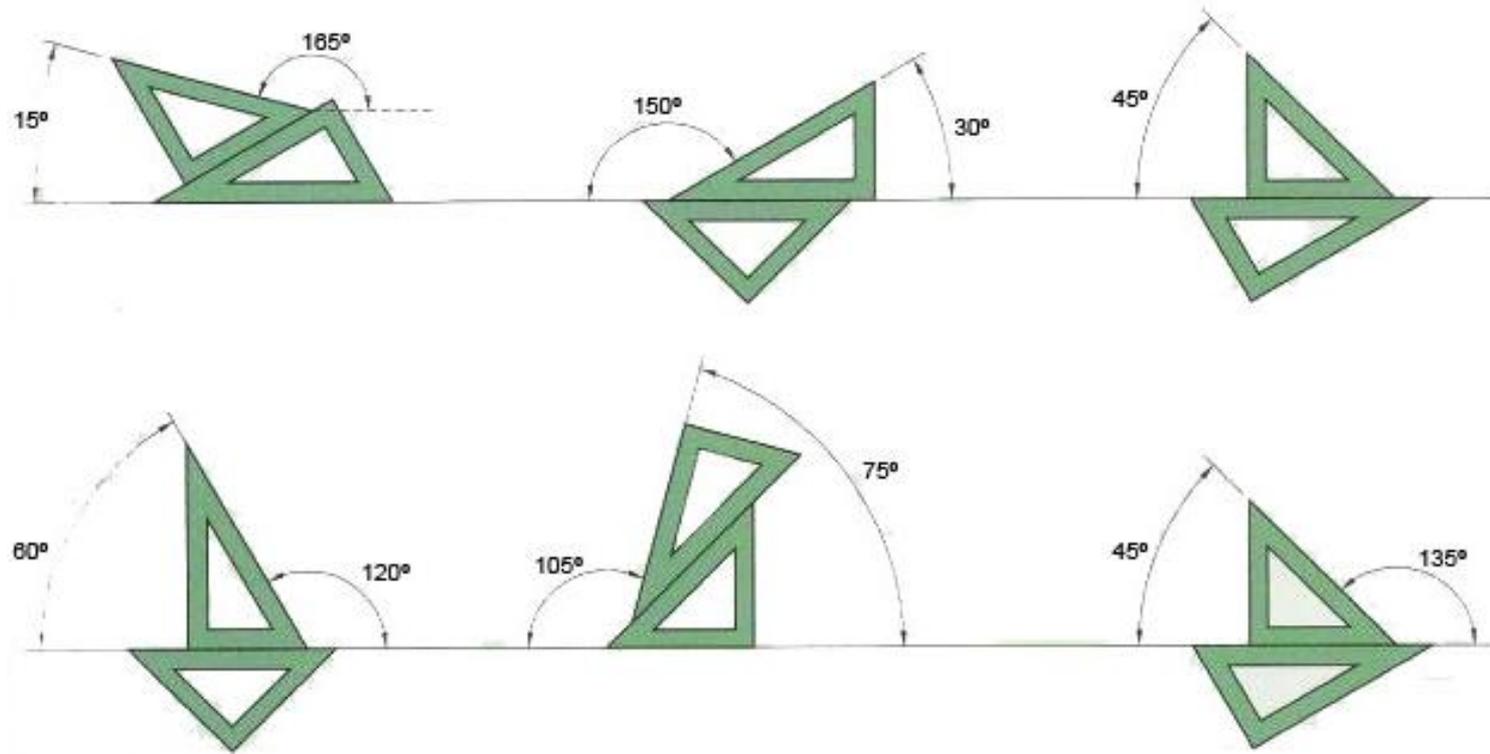

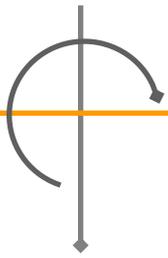

7. Trazar Línea Paralela a la Línea Arbitraria

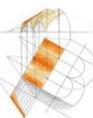

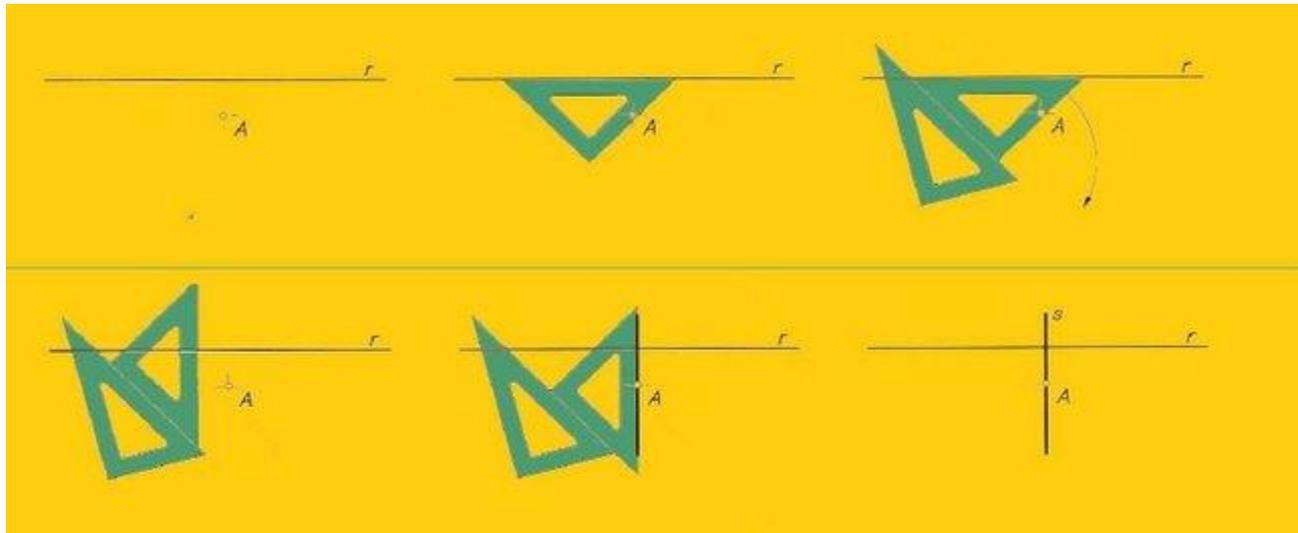

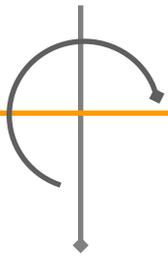

8. Uso de Escuadras_ Ángulos

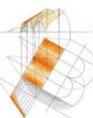

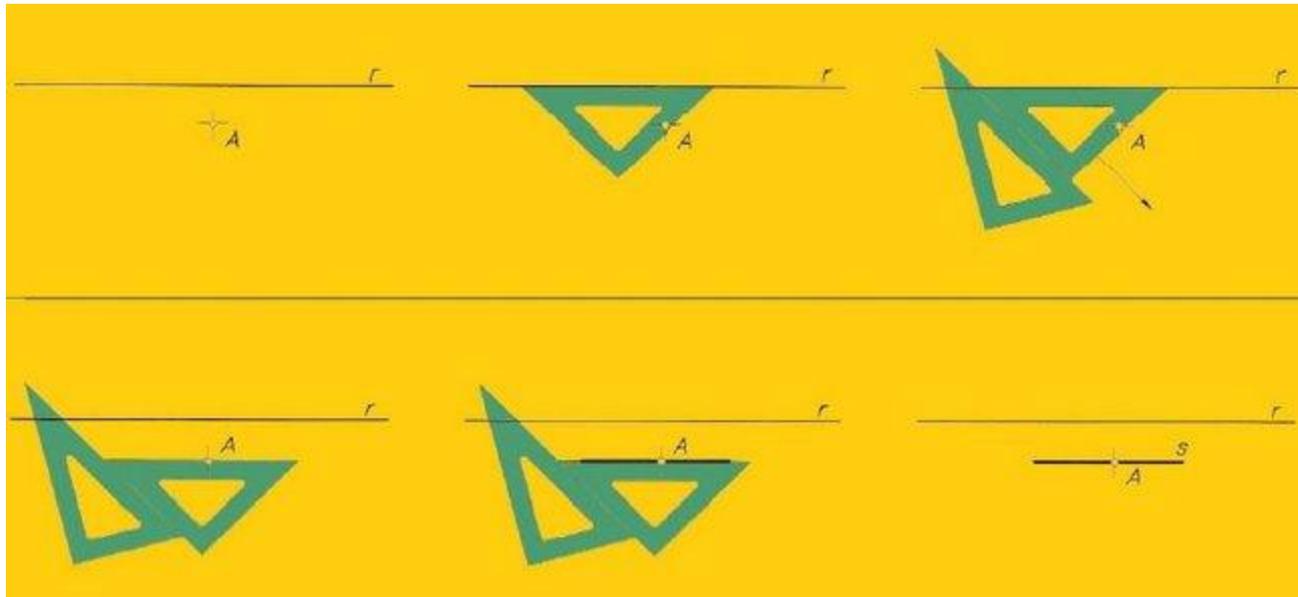

9. Uso de Escuadras_ Rectas Perpendiculares

10. Uso de Escuadras_ Rectas Paralelas

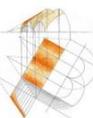

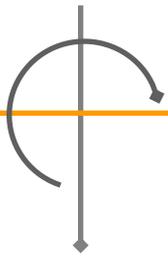

11. Lista resumen de materiales

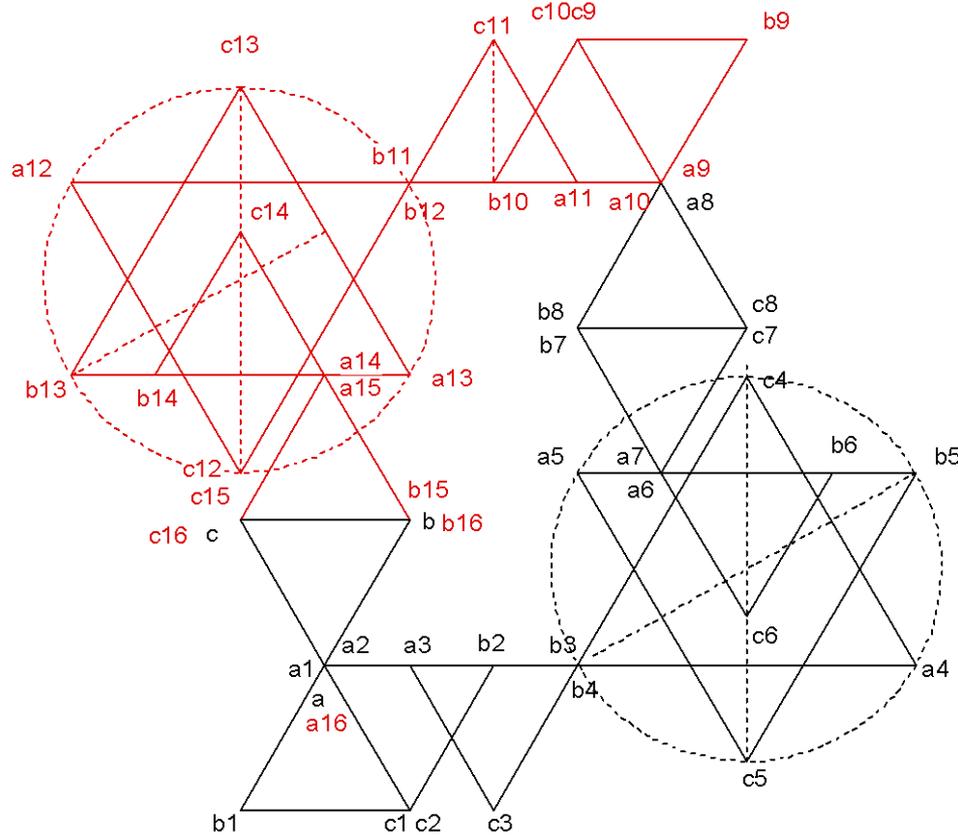

- Juego de escuadras $30^\circ / 60^\circ$ y 45°
- Transportador
- Lápiz Portaminas (0.3 y 0.5)
- Lápiz Rapidograf negro (0.1, 0.3 y 0.5)
- Compás de precisión con adaptador y extensor
- Goma dura y plantilla de borrar
- Block Hilado 9 o 180 (1/8 de mercurio)

Nota: Los materiales se exigirán a partir del Lunes 29 de Marzo.

12. Lámina de trabajo

13. Corrección de Ejercicios

I. Dibujo: 1 punto

- a. Márgenes y Viñeta: 0.1
- b. Trazado de líneas auxiliares: 0.1
- c. Uso de rápido Graf: 0.1
- d. Valorización: 0.1
- e. Uso de instrumentos: 0.2
- f. Nomenclatura: 0.1
- g. Limpieza: 0.2
- h. Ubicación en la lamina: 0.1

II. Gráfica: 4 puntos

III. Memoria: 1 punto

I+ II + III + punto base = 7.0
