Embassy of the Republic of Chile in China

Introduction

The China-Latin America 2024 Youth Challenge to Alleviate Poverty is designed to continuously cultivate the students' global competence, develop students' ability to analyze and respond to global challenges, and promote transnational and interdisciplinary interaction and thinking.

Under the topic of 'Poverty Alleviation', students can freely choose the direction they are interested in, initiate building or join in an interdisciplinary innovation team to either (1) explore global best practice as well as its dissemination and application in different country or area, or (2) develop an innovative solution with their team members.
