TROPO

How it Works | Pricing | Docs | Get Help | Blog

Add Voice, SMS, Twitter, and IM to Your Applications

Tropo is a powerful yet simple API that adds Voice, SMS, Twitter, and IM support to the programming languages you already know.

Try It Free!

Always free for development

OMG! Texting is now 1¢?! New lower pricing for SMS. Read our blog post for details.

Why Tropo?

Develop for FREE - Pay when you're ready
Tropo is completely free for developers.
Pay when you deploy and only for what you use.

Feature Complete
Get all the features you want, today.
Speech input, IM, multi-language, and more.

Amazing Support
Ask us questions 24 hours a day. Via the web or IRC.

Backed by Voxeo
The worlds largest scalable, real-time app cloud.
Over 200,000 developers and thousands of apps.

Your App. One API. Many Uses.

Here's a simple Tropo app that works via voice, SMS, and IM:

```
say("Yes, Tropo is this easy!");
```

Call, text, or IM this application!

Phone/SMS: **+1.240.242.7909**
IM (Jabber/GTalk): **tropo-homepage@tropo.im**
Skype: **Skype: +99000936 9991429732**
SIP: **sip:9991429732@sip.tropo.com**

About Pipes

Pipes is a powerful composition tool to aggregate, manipulate, and mashup content from around the web.

Like Unix pipes, simple commands can be combined together to create output that meets your needs:

- combine many feeds into one, then sort, filter and translate it.
- geocode your favorite feeds and browse the items on an interactive map.
- power widgets/badges on your web site.
- grab the output of any Pipes as RSS, JSON, KML, and other formats.

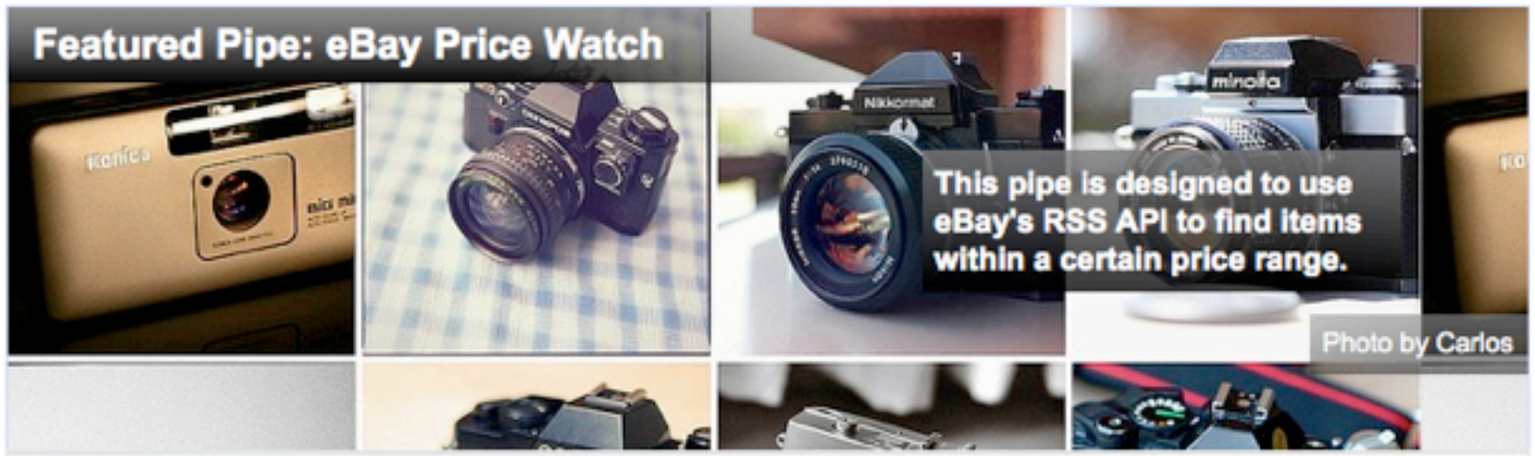
Sounds good? Learn more....

Create Pipe

How to Build a Pipe in Just a Few Minutes

Pipes only sounds hard. Watch our intro and see how you can quickly turn your idea into a usable, working feed.

Follow @yahoopipes on Twitter!



Blog Posts

V2 Full rollout complete.
A few weeks ago we rolled back the V2 release. Today all Pipes are now running on the V2 engine!

Full V2 rollout update
Yesterday we migrated all Pipes to the V2 engine. We experienced some minor delays in the completion of the full migration.

V2 Engine Migration Complete
It's been a little over a year since we first announced the V2 engine. After many months of work and help from the Pipes developer community, all Pipes now are running off our new V2 engine! Special thanks to hapdaniel and libra_sun for reporting issues and making V2 a better engine.

Qubity is in Beta

During Beta testing you may create an unlimited number of projects and you have access to all the functions of Qubity.

Qubity will always be free for personal use or for the use of small teams.

Manage tasks for yourself, for your team, for your project, for your business.

Collaborative task management

Manage all of your day-to-day tasks for all of the work and personal projects in your life. Better yet, do it with other people! Create your favorite structure to manage tasks for yourself and your collaborators. With Qubity, the flow of tasks is very similar to real life. The tasks can be accepted, delegated, completed, and sent back with a new deadline.

Plan your work (and that of your team) and obtain a general vision of all of your projects using your personal Gantt (time line) or your General Panel. This way you'll never forget anything.

Use Qubity in Google Chrome, Firefox, Safari and Opera

At the moment we're not giving support for Microsoft Internet Explorer. We suggest you to download any of the following browsers

Google Chrome Mozilla Firefox Apple Safari Opera

Weightless Pull / CO

By Kelly Minner — Filed under: Misc , CO

16 OCT 2011

Courtesy of CO

Weightless Pull designed by CO was part of Public Summer 2011 at Industry City. The installation temporarily transformed a once narrow and empty passageway into a lively vertical and depending on the wind horizontal sculptural environment.

Constructed of plastic wrap and nylon rope (there were over 600 different knots), CO's design focused on geometry fields and linear systems, mechanics simple intuitive systems that are natural to the chosen materials and geometry, and materials that are repeatable, reusable, and economically sustainable.
